

AMENDMENTS

Amendments to the Claims:

The listing of claims will replace all previous versions, and listings of claims in the application:

Listing of Claims:

The following listing of claims will replace all previous listings and versions thereof:

1. (Canceled)
2. (Currently amended) ~~The fatty amino acid derivative of claim 1, A fatty amino acid~~ compound, wherein the fatty amino acid ~~derivative~~compound or carboxylate salt thereof has a formula of:

Lipoasparagine (ALP)

Lipocysteine (CLP)

Liposerine (SLP)

or

wherein R¹ and R² are each, independently, a linear, branched, saturated and/or unsaturated hydrocarbon;[[,]] a cholesterol moiety[[,]]; a steroid moiety[[,]]; an aromatic moiety, or a combination thereof, ~~or a derivative thereof~~; and

X is an O group or a CH₂ group.

3. (Original) The fatty amino acid derivative of claim 2, wherein R¹ and R² are the same.
4. (Original) The fatty amino acid derivative of claim 2, wherein R¹ and R² are different.
5. (Original) The fatty amino acid derivative of claim 2, wherein at least one of R¹ and R² is a hydrocarbon of at least 5 carbon units.

6. (Original) The fatty amino acid derivative of claim 5, wherein the hydrocarbon is a linear hydrocarbon.
7. (Original) The fatty amino acid derivative of claim 5, wherein the hydrocarbon is a saturated hydrocarbon.
8. (Original) The fatty amino acid derivative of claim 5, wherein at least one of R¹ and R² is a linear saturated hydrocarbon of at least 10 carbon units.
9. (Original) The fatty amino acid derivative of claim 8, wherein at least one of R¹ and R² is a linear saturated hydrocarbon of at least 15 carbon units.
10. (Original) The fatty amino acid derivative of claim 9, wherein at least one of R¹ and R² is a linear saturated hydrocarbon of at least 20 carbon units.
11. (Original) The fatty amino acid derivative of claim 2, wherein X is an O group.
12. (Original) The fatty amino acid derivative of claim 2, wherein X is a CH₂ group.
13. (Currently amended) ~~The fatty amino acid derivative of claim 1, further defined as~~
~~comprised in a A liposome comprising the fatty amino acid compound of claim 1.~~
14. (Canceled)
15. (Canceled)
16. (Canceled)

17. (Currently amended) ~~The fatty amino acid derivative of claim 1, further defined as comprised in a food comprising a fatty amino acid compound of claim 1.~~
18. (Withdrawn, currently amended) A method of synthesizing a fatty amino acid derivative of claim 1 ~~or carboxylate salt thereof~~ comprising:
- cyclizing an asparagine, a cysteine or a serine with a R^1 -aldehyde under basic conditions; and
 - reacting the cyclized asparagine, cysteine, or serine with a R^2 -chloride, R^2 -chloroformate or derivative thereof to produce an asparagine, cysteine, or serine derivative.
19. (Withdrawn) The method of claim 18, wherein the fatty amino acid derivative or carboxylate salt thereof has the:

Lipoasparagine (ALP)

Lipocysteine (CLP)

or

Liposerine (SLP)

wherein R^1 and R^2 are each, independently, a linear, branched, saturated and/or unsaturated hydrocarbon, a cholesterol moiety, a steroid moiety, an aromatic moiety, a combination thereof, or a derivative thereof; and

X is an O group or a CH_2 group.

20. (Withdrawn) The method of claim 19, wherein R^1 and R^2 are the same.
21. (Withdrawn) The method of claim 19, wherein R^1 and R^2 are different.

22. (Withdrawn) The method of claim 19, wherein at least one of R^1 and R^2 is a hydrocarbon of at least 5 carbon units.
23. (Withdrawn) The method of claim 22, wherein the hydrocarbon is a linear hydrocarbon.
24. (Withdrawn) The method of claim 22, wherein the hydrocarbon is a saturated hydrocarbon.
25. (Withdrawn) The method of claim 22, wherein at least one of R^1 and R^2 is a linear saturated hydrocarbon of at least 10 carbon units.
26. (Withdrawn) The method of claim 25, wherein at least one of R^1 and R^2 is a linear saturated hydrocarbon of at least 15 carbon units.
27. (Withdrawn) The method of claim 26, wherein at least one of R^1 and R^2 is a linear saturated hydrocarbon of at least 20 carbon units.
28. (Withdrawn) The method of claim 19, wherein X is an O group.
29. (Withdrawn) The method of claim 19, wherein X is a CH_2 group.
